

## Professional Pet Sitter Erin 🐾🐾

I grew up in White Bear Lake and currently live in Centerville with my husband and our three teenage boys. I attended college at The Medical Institute of Minnesota, which later became Argosy University, where I was enrolled in the Veterinary Technician program. Along with being a stay-at-home mom for a period of time, my previous work history includes working at Banfield Pet Hospital in Maplewood.

I have always had a soft spot for animals--especially those with special needs. My family tends to seek out the animals that need (or will need) the most help.

Because of this and my training, I am not intimidated or nervous about special care requirements for any pet--including administering medication. I truly do not see our animals as "just" pets. I see them as our furry, four-legged kids. That is one of the main reasons I am a professional pet sitter, as I know a great deal of pet parents feel the same way about their animals. So it is truly my desire to help them feel confident and relaxed knowing their furry kids are being taken care of and loved while they're away.

My hobbies include teaching dance classes, reading, running and enjoying life with my family. Our time is spent at church, sporting events (hockey, soccer, dance, Cross Country Running team, Nordic Ski team and Track Team), travelling, recreation on the lake and just being together.
