

Professional Pet Sitter Alexis 🐾🐾

I'm from the small town of Winnebago, Minnesota, but now reside in Blaine with my husband. We are proud pet parents to two cats, Mia and Xanadu, and a tortoise, Welkin. I grew up always having cats and dogs in my life. I've also had other pets such as hamsters, fish, and a toad. When I was younger I even rescued 12 stray farm cats! So I've always loved animals, and am happy to regularly help care for my family and friends' pets as well.

I graduated with a bachelor's degree in business administration from Bethany Lutheran in Mankato. During one of my summer breaks, I studied abroad, in Tokyo, Japan. It had been my life-long dream to travel to that area. I grew up hearing stories about Japan from my family, as my grandfather was stationed in Yokohama during his service in the navy. While there, I studied Japanese and visited as much of the Country as possible.

After college, I worked in various offices, but found entrepreneurship to be the most rewarding. I am currently operating my own on-line business, "Kittocat", as I've always loved sewing and crafting and decided to sell handmade pet toys, treats, and accessories. Through that process, I realized it was important for me to follow my passions in life. I've always been very committed to the happiness, health and well-being of all animals, and I couldn't imagine a life without them.

My community and volunteer activities include participating in fundraising events whenever possible. One very impactful opportunity was planning and hosting a 5K dog run/walk to raise funds for the local Humane Society.

Some of my hobbies include baking, hiking, and reading. I also enjoy taking my adventurous cat, Mia, on walks or stroller rides or lying out in the grass with my tortoise, Welkin. I also enjoy spending time with my family and friends. I'm excited to love and care for your fur babies just as much as if they were my own!
